Is-sistema tal-V license biex tidhol il-Belt Valletta giet mbiddla ghas-sistema taz-zona ta' "Controlled Vehicular Access". Is-sistema ta' "Controlled Vehicular Access" tuza cameras dedikati li jimmonitorjaw u jiehdu ritratti tal-vetturi li jidhlu u johorgu miz-zona tac-CVA, li hi prezentament l-Belt Valletta. Is-sistema imbaghad tuza teknologija li taqra n-numru tal-licenzja awtomatikament (ANPR) biex tikkalkula awtomatikament l-hin li l-vettura damet gewwa z-zona tac-CVA tal-Belt Valletta u finalment tikkalkula l-ammont dovut ghall-access u parkegg bbazzat fuq t-tariffi stabbiliti mill-ADT.

The system of V licences for entry into Valletta has been replaced by the Controlled Vehicular Access zone system. The Controlled Vehicular Access system uses dedicated camera systems to monitor and photograph vehicles entering and exiting the CVA boundary, presently covering most of Valletta. The system then makes use of Automatic Number Plate Reading (ANPR) technology to automatically calculate the time the vehicle remained inside the Valletta CVA boundary and finally computes the fee due for access and parking based on the tariffs issued by the ADT.
